# **Request For Information (RFI)**

 Question / Inquiry	Program Response
Please provide a <b>thorough</b> description of your program. Please describe the new services or features of your program that were implemented after you last submitted a DASG RFI. Explain how your program is unique. Are there any programs on campus that are similar or is there any duplication of services?	Mentors at De Anza is a program created by students for students. Many of those struggle with help within the first year and the proper help from counselor. The goal of this program is to connect first and second/third year students based on their majors and experience. That way, creating a firm and close community but also making sure student feel more confident in their academic and personal success. There is no other program currently at de Anza that is fully lead by students, free for students and that has the amount of people we have right now.
How will your program expand students' perspectives and positively impact their lives and the community? (250 words max)	One way that this program expands students perspectives and impacts their lives is by connecting them with students that are knowledgeable in what they need the most. If college life is their goal, those students will leave the program knowing everything there is about college life and also integrated in the community they wish to join. Another way students are positively impacted is by being exposed to students who are knowledgeable in terms of transfer services and resources, which can help guide them but also to support those. In addition to that, this program hosts on top of the transfer panel, required training about current information on campus plus resources available for them that do contribute to a equitable campus.
Go through the most recent DASG Budget Guiding Principles and explain how your program fits each of them or as many as possible. Please do not merely copy and paste the DASG Guiding Principles. The DASG Budget Goals/DASG Budget Guiding Principles are available at www.deanza.edu/dasg/budget	I believe the mentors at de Anza program promotes and obliges by all the DASG budge guiding principles. Our main priority are the students therefore doing any and everything we can in our power to assure a safe, education and equitable place is what one of the purpose of this program. The only principle that this program would like to improve is investing and promoting environmental sustainable practices for students.
Explain how your program advertises and promotes itself to all students. Has your program made extra effort to market and reach underserved students? If so, describe how. If not, describe what challenges your program faces in trying to do so. Provide a clear plan for the current academic year as well as any marketing material you will or have used.	Our program not only engages with students on social media every week but also connects with the trough email. Our program sends a weekly e-mail with information about new events on campus and on the program. We promote ourselves for those on the program and outside our program. We also have made success to contact underserved students by contacting their constituency and inviting them to not only join the program but to also on our transfer panel and on our podcast. While promoting any event, we make sure to promote it equally to all organizations, clubs, programs and students. The current marketing plan is to reach out to as many as students as possible, making sure every single community is being included. As it for now, because of the pandemic situtation, this will be many done by posting on social media, emailing,

	talking to people on campus while hosting events and speaking in classes about out program.
Explain how your program promotes equity within the program and on campus. For example: equity training for all staff and student leaders, hiring from underrepresented communities, etc.	During the mentorship training process, we make sure to prioritize every single request and make sure those who need a specific help, will get it. We also make sure to include and make it required an equity training for all incoming mentor. That training is done by reading, watching and completing discussion on topics regarding equity.
How has your program adapted to providing its services online? Alternatively, please provide a clear plan for how your program would provide online services if needed in the future.	Absolutely. Our program was not only created in a online environment but also fully adapted to all matter when it comes to including all students. This program will keep the mentorship tailing online regardless of the setting we find ourselves. Not only that but this program will maintain our main communication online to make it sure we available for students in all timezones.
Please indicate which object codes are critical for DASG to fund this year. Please do NOT list down all of the object codes.	As this is a new program that was created during a pandemic, we do not have any physical supplies or material belonging to ourselves. Due to that, I believe the supplies and capital are important for this program. Not only that but because this program relies on the voluntary time of alumni (transfer students) to being available for 2 or 3 hours of their day to help us, we think it's fair that we give them some kind of monetary help. That is why the last and most important object code that are critical for this program is the professional services.
