Collecting assessments	I/D/A	Mary, Veronica	Microsoft Forms are being used to collect assessments during the transition from TracDat to eLumen.
eLumen implementation	I/D	Mary	eLumen implementation was discussed. 1) Together we observed instructions on Entering Individual Assessment Data. 2) Together we observed instructions on Entering Collective Assessment Data. All felt this was more doable. Mae asked if a column from the Canvas gradebook could be imported into eLumen. Mary thought yes, since there is an integration to perform assessment in Canvas and these are imported back.
